Spawn Creativity through Focus Groups

Typically, art guilds bundle all types of art.

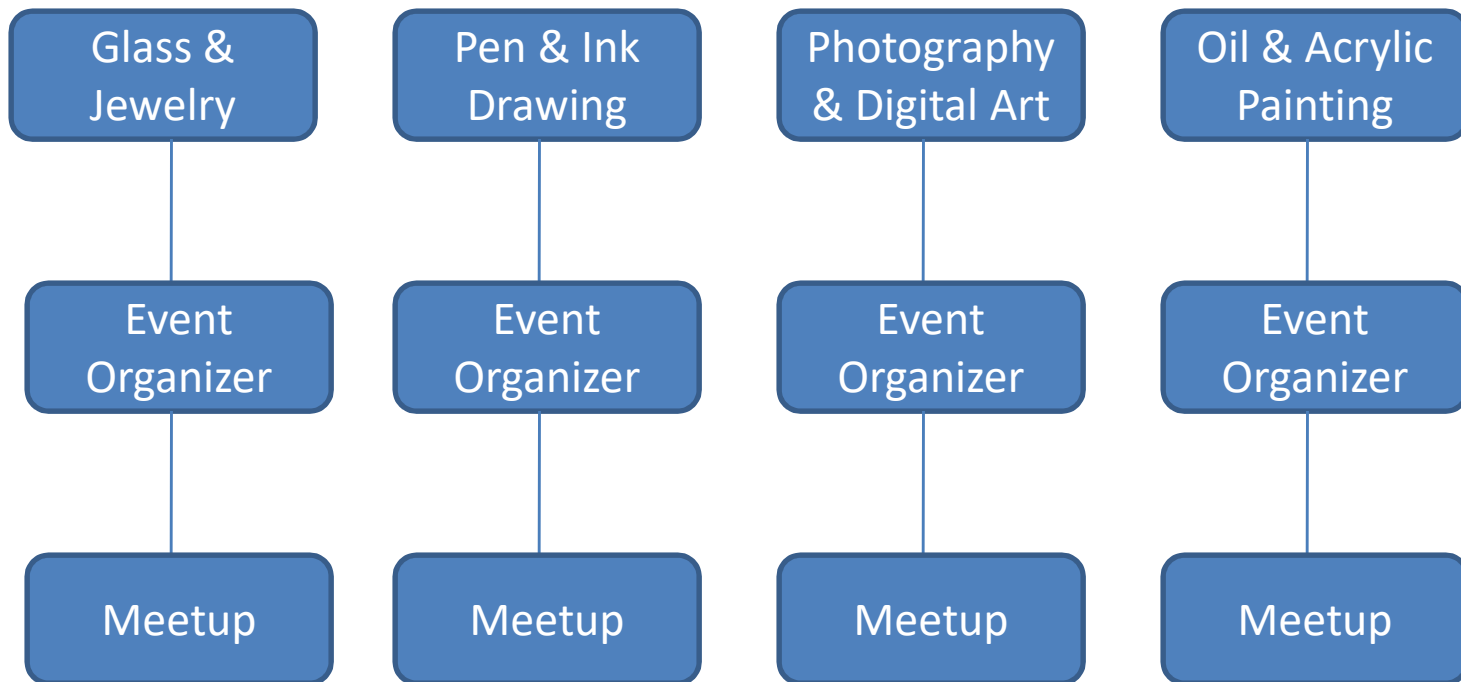

- Does the woodworker care about jewelry?
- Does the painter care about metal art?
- Does the photographer care about textile art?

Focus Groups

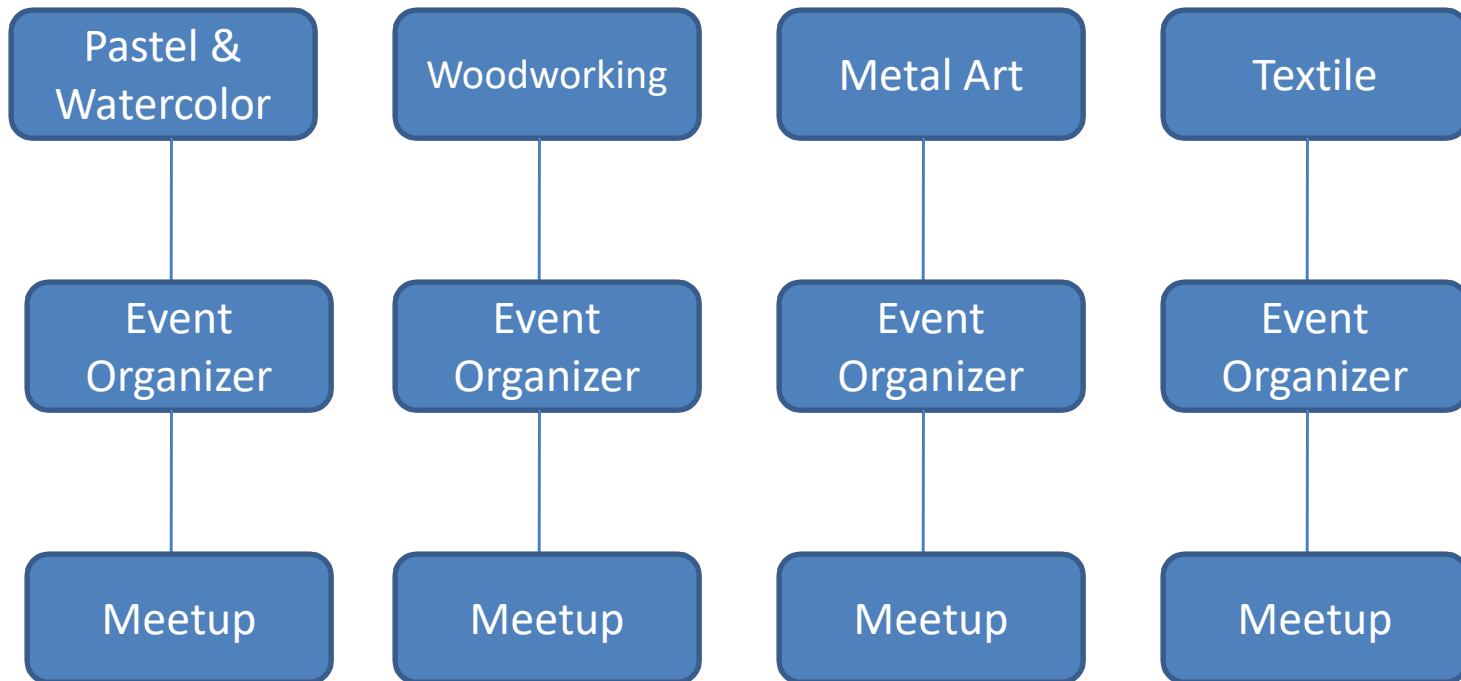

The purpose of a focus group is to create events for learning and practicing the particular art medium of interest. Find a teacher. Try new methods. Hang out with an artist who has more skills than you. Experiment!

Learn, practice and create!
